

SCUBA Tank Visual and Inspection Stickers

You should see a **Visual Sticker** of 2010 and within or past the month of your competition event. You should see a **Hydro Inspection Stamp** of 2005 or greater. Both are needed to make a tank safe and viable for competition.

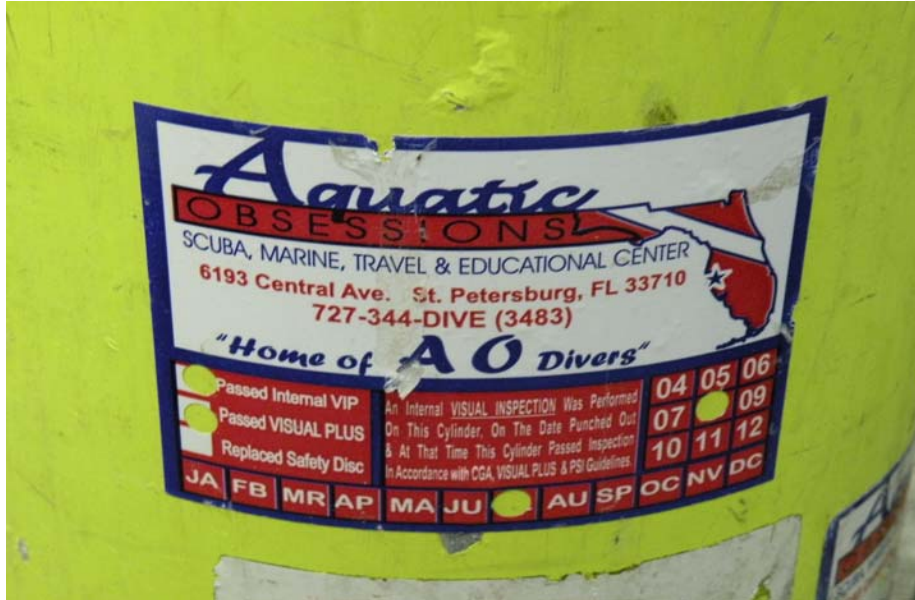

Figure 1: Visual Sticker, July 2008
This tank needs a Visual Inspection.

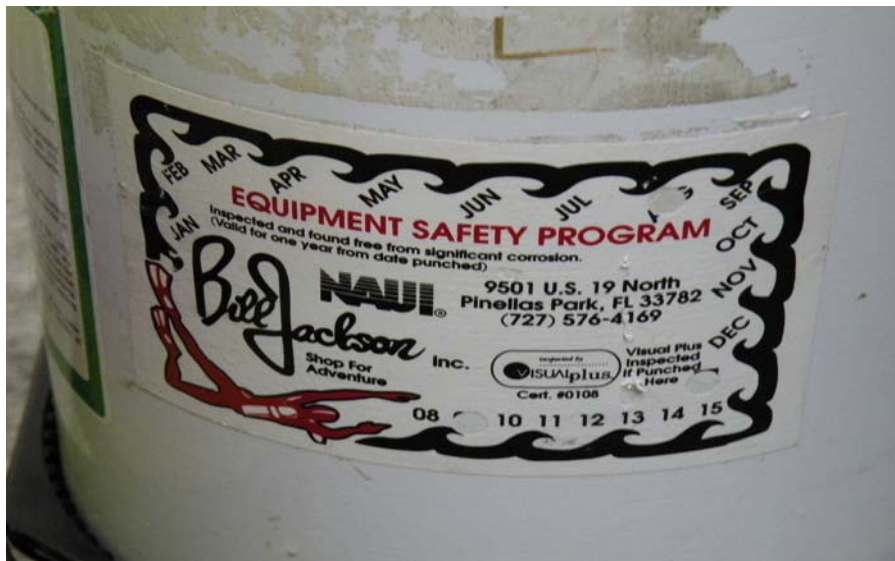

Figure 2: Visual Sticker, August 2009
This tank was okay until August of 2009, but now it is due for an inspection.

Figure 3: Hydro Inspection

The yellow tank on the left was last hydro-inspected on May 5th, 2006. It expires on May 1st, 2011. The pink tank on the right was last hydro-inspected on August 8th, 2008. It expires on August 1st, 2013.
