

## GENERAL:

Weight in air	18 kg
Dimensions:	
Length	70 cm
Width	42 cm
Height	36 cm
Power Requirements	24 volts DC
Maximum Operating Depth	80 meters
Manufacturer's Production Costs	1300 USD
Distance Traveled	11778.68 km

## VEHICLE DESCRIPTION:

Joystick Control, Color Cameras with Tilting Mechanism, Quick Disconnect Electronic Canister  
Primary Material Ultra-High-Molecular-Weight Polyethylene Safety Features One 25 Amp fuse  
Canister Water and Temperature Sensors
